Proportional Giving

This is a way of giving that begins with the question, "How has God Blessed Us?" rather than, "what does St. Catherine's need?" Then the decision is made to return a proportion or percentage to God in gratitude for God's blessings. The Biblical standard of giving is the tithe - 10%. Proportional giving recognizes that reaching the 10% benchmark can be formidable. Starting with a modest portion - such as 2% - and then moving up gradually each year has been successful for many people in reaching this goal. This chart gives you an example of how this might work depending on your resources and goals.
